Each plant grows 18 to 24 inches wide but only 3 or 4 inches tall, making a mass of tiny, green, moss-like foliage that stays green all winter. In the spring it is literally covered with a blanket of brightly colored flowers. Thrives in full sun or partial shade.

Placed in a row, these ground-hugging plants make a colorful low edging for a flower border, driveway or walk, and are wonderful to stop wash on terraces.

Henry Field's FALL 1954 CATALOG and SEED SENSE Magazine**HENRY FIELD SEED and NURSERY CO**
SHENANDOAH, IOWA**For Shade in a Hurry, Plant Henry Field's Hardy, Fast-Growing****HYBRID ELM****Hard-wooded and Long-lived**

If you are looking for a good, hardy tree to give you shade in a hurry, Henry Field's Hybrid Elm is your answer. It is a cross of American Elm and Chinese Elm but with leaves larger than either, and darker green in color. It also is hard-wooded and long-lived, with smooth bark of medium gray color. The limbs grow open and well spaced, allowing enough light to filter through for good lawn growth, yet dense enough for cool shade.

It thrives in extremes of heat and cold, in soils wet and dry, and (very important) we have never known of one to be attacked by Dutch Elm disease.

See Page 22 for necessary planting instructions.

A4235—4 to 6 ft. size, 3.29 each; 6 to 8 ft., 3.89. All are too large to mail, so are sent express not prepaid.**FALL IS THE TIME TO PLANT HYBRID ELM.** Henry Field's Hybrid Elms can be planted either in spring or fall, but fall is an excellent time to plant them. They certainly do get off to a head start when fall planted.**3 Large-Flowered HYBRID CLEMATIS**

Hybrid Clematis do exceptionally well when planted in the fall.

We send you plants out of 2 1/4" pots as we find this size does best. You get them with the roots in the moss they grew in—just put these moss balls in the ground (preferably on east side of the house), pack dirt around them well, and a little over them. Next spring they will grow and bloom beautifully.

DARWIN TULIPS

MOST POPULAR OF ALL TULIPS

Darwins have long been the most popular of all tulips, probably because of their bright, cheerful colors and because their stems are just about the right length for all purposes (about 2 feet in a normal season).

We have tried to choose for you the 12 very best of all Darwin varieties—not the most expensive but the best. All these bulbs are 11 to 12 centimeter size, and all are imported from Holland.

Please do not order less than 3 bulbs of any one variety unless a single bulb price is listed. All tulips are shipped postpaid.

Henry Field's Famous RAINBOW COLLECTION of DARWIN TULIPS

A REAL BARGAIN

15 MIXED BULBS for only **\$1.00** POST PAID No. B7062X

Large Bulbs—Lots of Them—All Named Varieties

We have always figured it takes plenty of tulips to make a good show so we try to have a real reasonable offer, particularly for the folks who need it—all the rest of you are welcome, too.

For many years Henry Field's "Rainbow Tulip Collection" has been famous. It's a lot of bulbs, good bulbs and good varieties, for only 1.00, postpaid.

Now these aren't little bulbs, but big ones—10 to 11 centimeter size. In plain English, that's about 4" around. And they aren't just any old mixed bulbs swept up off the floor or out of the corners, or left-overs. We buy 20 named varieties of the finest Darwin tulips and mix them right here in the seed house. Drop in at bulb time and we'll show you.

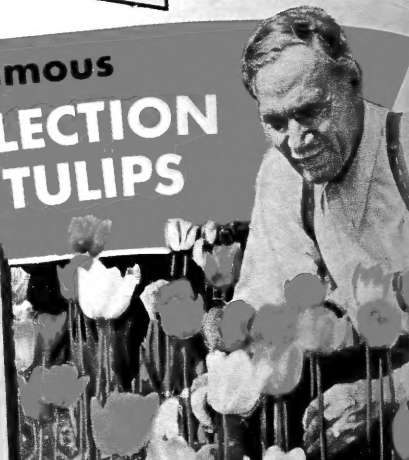

If you want these bulbs, better order early because we usually sell out quick on this collection.

1 collection (15 bulbs) for 1.00; 2 collections (30 bulbs) for 1.95; 6 collections (90 bulbs) 5.50, postpaid.

GIANT RAINBOW COLLECTION

B7065X—Here is a special bargain in the GIANT-sized bulbs. It is made up of Holland-grown, named varieties that you will be proud to have growing in your yard. Your neighbors will admire them, and, if they know anything about tulips, they will recognize their quality. These bulbs will produce amazingly large flowers next spring. All colors. We buy named varieties and mix them ourselves.

1 collection (10 bulbs) 98c; 2 collections (20 bulbs), 1.89; 5 collections (50 bulbs), 4.35; 10 collections (100 bulbs), 7.98, postpaid.

PARROT TULIP MIXTURE

B6324—Assortment of beautiful colors. 3 for 50c; 6 for 79c; 12 for 1.39; 25 for 2.49; 100 for 8.50; ppd.

BREEDER TULIPS

Longer Stems—Darker Colors

Breeder Tulips are different in two ways:

- (1) They have longer stems, up to 3½ ft. in height.
- (2) Their colors are richer and darker.

This makes them particularly suitable for the back of the row, or in the center of the bed. Their deep, rich, bold colors accent the beauty of the lighter, brighter-colored tulips. Also fine planted alone.

Named Varieties Collection

B7000X—2 each of 6 leading named varieties of Breeder Tulips. 12 bulbs in all. Labeled. Only 1.69, postpaid.

Mixed Breeder Tulips

B6010—Mixed colors but all dark and long stemmed. 3 for 50c; 6 for 85c; 12 for 1.49; 25 for 2.69, postpaid.

Early FLOWERING TULIPS

Improved varieties with a wide range of clear, bright colors you will be happy to see early in the spring. The petals are more pointed, blossoms more open than most tulips. They look very much like the pretty pointed caps the Dutch girls wear. Stems of medium height.

B6272—SPECIAL MIXTURE. Mixture of named varieties. 3 for 50c; 6 for 85c; 12 for 1.59; 25 for 2.79, postpaid.

4 BRAND NEW ONES

Here are four new tulips that are far ahead of the ordinary garden tulips:

B6070—FLORENCE NIGHTINGALE. A Darwin of brilliant vermillion-lake red. Huge blooms. 24" stems. 40c ea.; 3 for 1.00; 6 for 1.75; 12 for 3.25; 25 for 5.95, ppd.

B6053—BLACK GIRL. Nearest to true black of all tulips. Large flowers. Tall stems. 22c ea.; 3 for 60c; 6 for 1.10; 12 for 1.98, ppd.

B6080—IVORY GLORY. A cottage tulip. Finest white we have ever seen. Huge blooms on 29" stems. 30c ea.; 3 for 75c; 6 for 1.35; 12 for 2.40; 25 for 4.45, ppd.

B6073—GISELA. This lily-flowered variety is probably one of the most beautiful of all for cut flowers. 24" stems. 25c ea.; 3 for 70c; 6 for 1.20; 12 for 2.15; 25 for 4.29, ppd.

NEW VARIETIES COLLECTION

B7071X—Collection of 12 bulbs (3 each of the 4 brand new ones), labeled: 2.69, ppd. 4 collections (48 bulbs—12 of the 4 kinds), 9.95, ppd.

REMBRANDT TULIPS the "Painted Tulips"

B6375—Our catalog is one of the very few in which you will find these "painted tulips." We always have been strong for them because we know most people like plenty of color, and the Rembrandts certainly are colorful. They grow

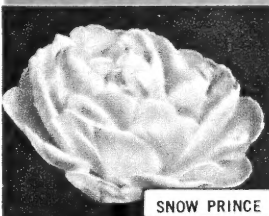

like Darwins, are about the same size and shape, but the flowers are striped and flamed, or flaked, with vivid colors. Mixed Rembrandts, all colors: 3 for 55c; 6 for 89c; 12 for 1.59; 25 for 2.79; 100 for 9.98, postpaid.

AMERICAN FLAG

B6350—The finest of all Rembrandt tulips. Brilliant red, striped and flecked with white. People who visit our show grounds always are attracted by the beauty of this striking tulip. 3 for 58c; 6 for 92c; 12 for 1.65; 25 for 2.98, ppd.

CHRYSANTHEMUMS

Chrysanthemums are among the best of all perennials, being easy to grow, hardy, free-blooming, colorful and beautiful. Normally bloom from early Sept. until severe frost. Be sure to mulch well the first winter.

B1408—DOROTHY ALLFREY. Huge double flowers of amber-bronze on a perfectly shaped plant of rich, broad, dark green foliage. Pinch off a few side buds and the main flower on the stem will get 6" wide—like a football mum. **79c each; 3 for 2.10, ppd.**

B1402—CECIL BEED. A fine, new, bright lavender-pink with the tips of the petals touched with gold. Fully double flowers 2½" across produced in abundance on long stems. A really fine Mum. **49c each; 3 for 1.29, ppd.**

B1443—PINK OPAL. (Kraus.) A gorgeous 1951

introduction of pale Persian-rose overlaid with cream tints. Large, fully double flowers measuring as much as 4" across. A beautiful Mum. **69c each; 3 for 1.69, ppd.**

B1439—PAPER WHITE. Solidly double and of whitest white—like fine rice paper. Masses of flowers 2" across with centers whiter than shown in picture. Plant bushy, 18" to 24" high. **59c each; 3 for 1.59, ppd.**

B1452—SCARLET CRIMSON. Fine, large, double crimson, bordering on scarlet. One of the best of its color. Fully double flowers are 3" across and borne in great numbers on a medium-high bushy plant. **49c each; 3 for 1.29, ppd.**

B1461—TAPESTRY. (Bristol.) A new combination of gorgeous shading. Opens gleaming rich pink, slowly softening to ashes-of-roses with golden flush.

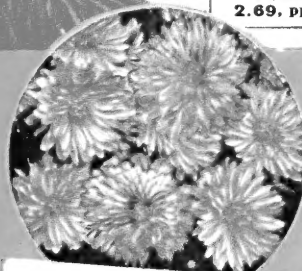

Flowers fully double and 3" across. Blooms early in Sept. **69c each; 3 for 1.89, ppd.**

B1400—BONFIRE. Brilliant, solid double pompon flowers 1½" to 2" across borne in masses on tall stems. Rather late blooming. **59c each; 3 for 1.59, ppd.**

B1429—LEE POWELL. (Kraus.) Another new Mum. Huge 4½" flowers like great masses of fluffy Chinese-yellow down. Stems long and fine for cutting. Good grower. Mum of the year for 1951. **69c each; 3 for 1.89, ppd.**

Cut Flower Collection

B3141X—4 of the best Mums for cut flowers: 1 Lee Powell, 1 Cecil Beed, 1 Pink Opal, 1 White Cloud. All 4 **1.98, ppd.**

FUCHSIA FAIRY CHRYSANTHEMUM

B1419—A mass of 1" flat, fully double, fuchsia-colored flowers. This little mum makes a plant 2' across and about as high, that is literally loaded down with blooms. Because of its attractive color and profusion of bloom, it is one of the best varieties we offer. **59c each; 3 for 1.59, ppd.**

5 NEW Large-Flowered CHRYSANTHEMUMS

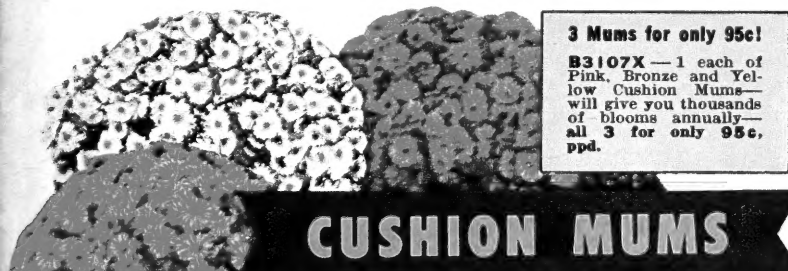

B1427—HUNTSMAN (Bristol). One of the most brilliant mums we grow. Fiery red flowers about 2½" to 3". Solid double. Fine long stems for cutting. **69c each; 3 for 1.89, ppd.**

B1470—WHITE CLOUD. Large 3" blooms of pure white with a lemon-yellow center. Petals broad and attractive. Plant grows 2' tall. **59c each; 3 for 1.59, ppd.**

B1432—FLAXEN BEAUTY (Bristol). 4" blooms that look like huge flaxen-colored Cactus Dahlias. Beautifully blended with soft coral, gold and bronze. Plant grows low (20") and broad. **59c each; 3 for 1.59, ppd.**

B1424—GOLDEN MOUND. Masses of double, golden yellow blossoms making each plant a 2-foot mound of gold. Very early bloomer—and good. **69c each; 3 for 1.89, ppd.**

B1421—DU-BON-A. Rich wine-purple. Very showy 4" flowers. Lots of large blooms on long stems. Bushy plant 2' high. **69c each; 3 for 1.89, ppd.**

3 Mums for only 95c!

B3107X—1 each of Pink, Bronze and Yellow Cushion Mums—will give you thousands of blooms annually—all 3 for only **95c, ppd.**

CUSHION MUMS

Bloom the first year after planting and grow to a size 3 feet across and 2 feet high, with flowers so solid and thick no foliage shows. Often a thousand blooms to one plant. You never miss a dozen cut daily for the table.

B1412—Pink Cushion. The bright pink that blooms early in the fall. **39c each; 3 for 98c, ppd.**

B1416—Yellow Cushion. A very early golden yellow. **39c each; 3 for 98c, ppd.**

B1414—Red Cushion (Rouge Cushion). The very finest of all red cushions. Early. **39c each; 3 for 98c, ppd.**

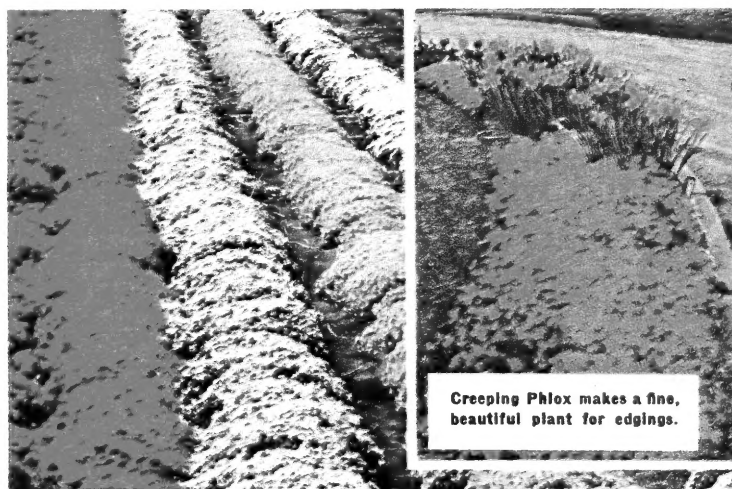

B1415—White Cushion. Opens palest pink, turns almost immediately to pure white. **39c each; 3 for 98c, ppd.**

B1411—Bronze Cushion. The best double bronze cushion. Early flowering. **39c each; 3 for 98c, ppd.**

B1413—Purple Cushion. Brilliant royal purple. New and showy. Blooms a little later than the others. **49c each; 3 for 1.29, ppd.**

Rainbow Cushion Mum Collection

B3106X—1 each of the 6 colorful Cushion Mums pictured. All 6 for only **1.98 ppd.**

Creeping Phlox makes a fine, beautiful plant for edgings.

Creeping PHLOX (Phlox Subulata) sometimes called Moss Pink

Our picture shows them growing in rows in our nursery grounds but they make beautiful and useful edgings for perennials (see smaller picture at upper right), and are fine as bank binders where there is often a wash. Do well in hot and rather dry locations; thrive in full sun or partial shade. Have masses of moss-like foliage which stays green all winter. In spring, the low mound-like plants are covered with bright colored flowers.

B1673—Brilliant Red. The new bright red.

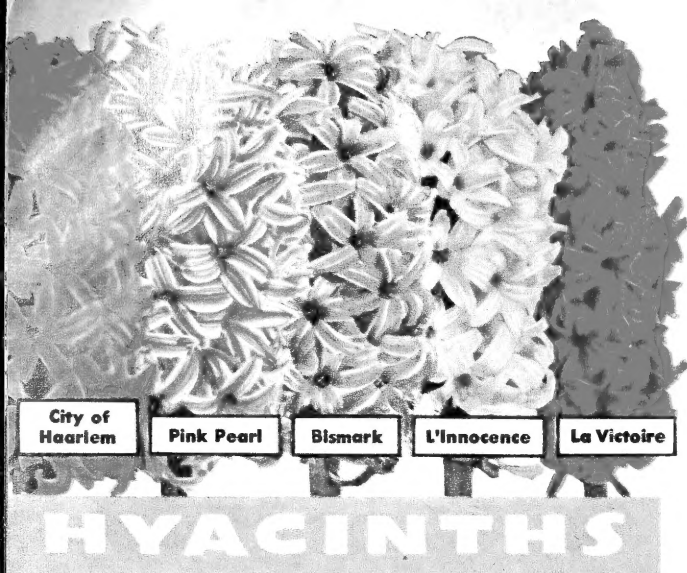

B1674—Emerald Gem. Emerald green foliage, deep pink flowers.

B1672—Blue Fairy. Reddish green foliage, soft blue flowers.

B1675—Snow Maiden. Dainty cut foliage, snowflake-like pure white flowers.

Prices on above: **39c each; 3 for 89c, ppd.**

B3210X—1 each of the above 4 Creeping Phlox for only **1.39, ppd.**

Have Spring Indoors THIS WINTER with Henry Field **HOUSE PLANTS**

When winter comes, and all your outdoor flowers are gone, then you are doubly grateful for house plants with their green foliage and cheerful flowers to brighten up your house.

And it is so easy to have cheerful house plants. The important thing is to start with good plants and the right varieties. We at Henry Field's grow only the better varieties, shipped to you out of 2 1/4" pots unless otherwise specified. They are healthy, husky, young plants, free of disease, that will do well for you.

Easy-to-follow instructions go with each plant.

ALL HOUSE PLANTS ARE SHIPPED POSTPAID

4062—Potting Soil. Contains Iowa loam soil with added humus, nitrogen, phosphorus and potash, plus vitamins B1 and B2, plus Rootone for stimulating root growth. 1 gal. enough for 10 to 12 4" flower pots. Not essential for growing house plants but will help if your own soil is weak. 1/2 gal. 1.10; 1 gal. 1.60, postpaid.

Scarlet Flowered **FLAME VIOLET**

2N1—Flame Violet is the registered trade mark name for *Episcia Coccinea*, a close cousin of the African Violet. However, unlike any African Violet, its blossoms are a true scarlet red. They are breath-takingly beautiful against the broad, thick, plush-like leaves of deep bronze-green, with veins of emerald green. Its care is simple—just treat it like your African Violets. **1.98 each; 3 for 5.40.**

Large, True Red Blossoms

The blossoms actually are a little larger than this picture. Each petal is delicately fringed, and of a brilliant scarlet color... a flaming red.

Lovely **IVIES**

HENRY'S BRANCHING IVY

BABY TEARS

VINE

2N418—Has an abundance of tiny, round, neat leaves of brilliant green which make a beautiful cascade down the sides of whatever the plant grows in.

Thrives under ordinary house conditions as long as it has sunshine. And, during summer, you can plant it outside in window or porch boxes. **49c each; 3 for 1.39.**

"NO SUNSHINE" HOUSE PLANTS

SILVER THREADS

Variegated PEPEROMIA

PRAYER PLANT

PHILODENDRON

These four "No Sunshine" House Plants thrive in those dark corners that get little or no sunshine. Of course they do well in well lighted rooms too, but not in direct sunshine:

2N420—SILVER THREADS (Pittonia). Bright green leaves netted with silvery-white veins. **75c each; 3 for 1.58.**

PEPEROMIA. Ideal for coffee or end table, or shaded window. **2N417—**Variegated; leaves green and yellow. **2N416—**leaves all deep green. Both **39c each; 3 for 98c.**

2N423—PRAYER PLANT (Marantha).

Large, rounded leaves of clear blue-green spread with brown spots. In the evening, it lifts its branches, bringing the leaves together like hands held in prayer. **65c each; 3 for 1.79.**

2N412—PHILODENDRON. Everyone knows and likes this trailing vine of a thousand uses. **39c each; 3 for 98c.**

2N728X—"No Sunshine" Collection. 1 each of Silver Threads, Prayer Plant, Variegated Peperomia, and Philodendron—all 4 for only 1.89.

Winter **HOUSE FERNS**

2N82—FLUFFY RUFFLES. Decorative and very beautiful. **49c; 3 for 1.39.**

2N76—BOSTON FERN. Rich dark green leaves. Likes light, but no direct sunshine. **45c each; 3 for 1.29.**

2N87—LACE FERN (Asparagus Plumosus). Foliage so fine it looks like green lace. A favorite for use in bouquets. **39c; 3 for 1.10.**

2N84—GREEN RIPPLES. Much like popular Fluffy Ruffles but smaller. Foliage is beautifully rippled. An ideal pot plant; grows well for several years without repotting. **85c; 3 for 2.39.**

"Best 4" Ferns Bargain

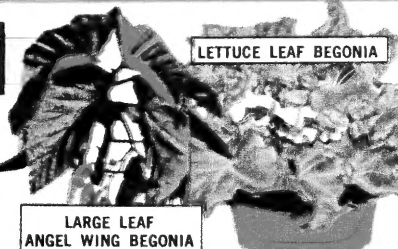

2N581X—1 each of Boston, Fluffy Ruffles, Lace, and Green Ripples—all 4 for only 1.98.

Everblooming **SULTANAS**

(Impatiens)

Among the easiest to grow, and most free flowering, of all house plants. Bloom just about 12 months of the year. Grow well in outdoor garden in summer. **PRICES: 49c each; 3 for 1.39.**

2N453—White. **2N451—Salmon.** **2N450—Red.** **2N452—Showy variegated green and white leaves; showy red flowers.** **2N750X—1 each of the four Sultanas for only 1.59.**

LETTUCE LEAF BEGONIA

LARGE LEAF ANGEL WING BEGONIA

New and Unusual **BEGONIAS**

Begonias bloom beautifully indoors, are grand for window boxes, and make very showy plants in the shaded garden.

2N211—LARGE LEAF ANGEL WING. Large, deep bronze leaves, rich red underneath, with long panicles of bright red flowers. **79c; 3 for 2.16.**

2N232—LETTUCE LEAF BEGONIA. Ruffled leaves of several shades of green tinted red. **1.00 each.**

2N218—ORANGE RUBRA (not pictured). Flowers bright orange, large and brilliant. Truly gorgeous. **98c; 3 for 2.69.**

2N603X—"New and Unusual" Begonia Bargain—1 each of Large Leaf Angel Wing, Lettuce Leaf, and Orange Rubra—all 3 for 2.49.

Double Rose Bud **BEGONIAS**

These are not ordinary begonias. The plants grow round and solid, with many clusters of small, double flowers that look just like little rose buds. Easy to grow, and very beautiful. Wonderful indoors plants and ideal outdoors in summer in semi-shaded pots, and window and porch boxes, because they bloom profusely and almost constantly.

2N220—Double Rose Bud Begonia Red.

2N221—Double Rose Bud Begonia Pink.

2N222—Double Rose Bud Begonia White. **PRICES: 75c each.**

The Iris listed here are among the country's finest. (See Catalog Envelope for very finest of all varieties.) Some are Dykes Medal Winners; many are included in the American Iris Society's list of "100 Most Popular Iris for 1954." Yet they are low priced—from 49c up to \$2.00 and \$3.00. Higher priced Iris are not necessarily better; just more scarce for the time being.

Iris should be mulched the first winter to prevent heaving by frost.

of
12 Beautiful
IRIS

for only

\$1.49
postpaid

No. B3077X

This collection is made up of the varieties we are "long" on (more often than not they are the most expensive ones), so you get a bargain collection of every color of the rainbow and we balance our inventory. It is a good deal both ways.

These are not seconds or culls or damaged bulbs. They are the regular high grade ones just as listed individually right on these pages. Come right out of the same fields. This is a good, honest, old-fashioned type Henry Field bargain.

RED and PINK IRIS

The following varieties are pictured on the opposite page:

B1386—RED ORCHID. Best red Iris we have ever seen. Early bloomer. Intermediate type. 69c each; 3 for 1.69.

B1345—GARDEN MAGIC. One of the better reds. Color is deep and velvety. Of fine form. Good substance to petals. 75c each; 3 for 1.79.

B1392—STARLESS NIGHT. (J. Sass). Rich, deep glowing blackish red. Probably deepest color of all reds. 59c each; 3 for 1.49.

B1373—MULBERRY ROSE. Very large blooms of rich, mulberry rose—one of the most unusual new colors in Iris. Tall stemmed and well-branched. Award of Merit 1944. 69c each; 3 for 1.69.

B1329—CHANTILLY. Heavily ruffled and crinkled orchid pink. Blossoms look as though they had been edged with fine lace. 1.49 each; 3 for 3.89.

B1395—TEA ROSE. A fine Iris from Mrs. Whiting. Deep shade of mallow pink with a gleaming coppery shading. 75c each; 3 for 1.79.

B1384—PINK SEEDLING from APRICOT SUPREME. Described in detail on page 12. 3 for 1.98.

B1349—HARRIET THOREAU. Very large flowers of orchid pink. One of the finest of its color. Many blooms. 69c each; 3 for 1.69.

B1385—RANGER. Brilliant, near crimson red. Huge blooms on long, strong stalks. Fragrant. Heavy bloomer. Award of Merit 1946. 1.39 each; 3 for 3.89.

The following three Iris are not pictured on opposite page; they are just as good as above varieties but there wasn't room to picture them:

B1344—GARDEN GLORY. Pure, rich velvety ruby and one of the nearest to true red. 1.49 each; 3 for 3.89.

B1326—AZALEA. Beautiful Azalea pink with just a flush of ivory en-

veloping the whole flower. Soft pink beard. 1.29 each; 3 for 3.49.

B1380—PINK CAMEO. One of the finest of the famous Flamingo pinks. Very, very scarce; our own supply is limited. 1.50 each; 3 for 3.98.

4 FINEST RED AND PINK IRIS

B3085X—One each of Red Orchid, Mulberry Rose, Garden Glory and Azalea—all 4 for only 3.49, postpaid.

RED AND PINK BARGAIN

B3081X—10 choice assorted Iris of the finest red and pink shades. All named varieties but not labeled. All for 1.69, postpaid.

RAINBOW IRIS

The following 7 varieties are pictured and priced on the envelope in which this catalog came to you:

Sable Ola Kala
Blue Rhythm Snow Flurry
Elmohr Lady Mohr
 Blue Shimmer

The following varieties are pictured on the opposite page:

B1274—ROCKET. In our opinion, the most brilliant of all Iris. Standards deepest, glowing, chrome-yellow. Falls bright true orange almost to edge. An erect, domed flower. 1.49 each; 3 for 3.98.

B1369—MINNIE COLQUITT. Huge petals of snow white edged with broad band of rich purple. 98c each; 3 for 2.49.

B1242—GRAND CANYON. Difficult to describe (see picture on opposite page). A beautiful mixture of rich colors. Well named. 69c each; 3 for 1.69.

B1288—WABASH. An old variety but still one of the very finest of all Iris. Standards white, falls deep blue edged white. 49c each; 3 for 1.29.

B1277—SHARKSKIN. Flowers stylishly tailored and finished in a pure silken white. Award of Merit in 1946. 75c each; 3 for 1.79.

B1225—AZURE SKIES. Lovely, light airy ruffled, pale, cool, lavender-blue. Award of Merit 1945. Crisp and starched. 59c each; 3 for 1.49.

B1221—ARAB CHIEF. Brilliant and attractive rich, burnt orange—almost henna. An intense color. Large flowers with flaring falls. 98c each; 3 for 2.49.

B1236—DESERT SONG. The finest and most beautiful of the rich cream Iris. The cream flowers, with a soft buttercup tinge, are borne on long, strong stems. 1.49 each; 3 for 3.98.

B1282—SOLID MAHOGANY. Large blooms of rich mahogany red. Heavy textured petals stand up well in all kinds of weather. A top Iris. 69c each; 3 for 1.69.

B1246—GREAT LAKES. Dykes Medal Winner and one of the finest blues. Rugged and hardy. 69c each; 3 for 1.69.

B1227—BLACK FOREST. One of the nearest to black of all Iris. Even the beard is blue-black. Can be used in striking contrast to the lighter colors. 1.00 each; 3 for 2.50.

B1259—MOONLIGHT MADONNA. Entrancing, large ruffled beauty of lemon ice. Tall and exceptionally good for cutting. 69c each; 3 for 1.69.

4 FINEST RAINBOW IRIS

B3088X—1 each of Blue Shimmer, Rocket, Arab Chief and Minnie Colquitt—the ones we consider the finest of all Rainbow Iris. All 4 for only 3.59, postpaid.

Oriental POPPIES

Again this year Oriental Poppies are scarce and high priced—except at Henry Field's. Check any other catalog and see for yourself.

We didn't have room to picture the following, but they are just as good as those pictured on the opposite page; some are better:

B1706—GLORY GLOW. The earliest of all. Medium-sized, double orange blooms borne in profusion. 59c each; 3 for 1.49, ppd.

B1702—BEAUTY OF LIVERMORE. The finest dark crimson with black blotch at base. Very large flowers. 79c each; 3 for 1.98, ppd.

B1713—HERCULES. Immense, true scarlet flowers, often 9" across on 42" stems. 69c each; 3 for 1.79, ppd.

B1703—BIG JIM. Huge, deep red blooms big as platters. 79c each; 3 for 1.98, ppd.

B1736—WUNDERKIND. Considered finest cerise-colored poppy. True begonia-rose. 79c each; 3 for 1.98, ppd.

B1714—GLOWING ROSE. Large glowing rose-pink blossoms. 79c each; 3 for 1.98, ppd.

B1726—RED FLAME. Flaming lacquer red. Medium size flowers on 32" stems. 69c each; 3 for 1.79.

B1715—CURTIS GIANT MULBERRY. From the giant Curtis strain of hybrids. Flowers of rich mulberry often 10" or more across. 79c each; 3 for 1.98, ppd.

B1716—CURTIS GIANT FLAME. Often bears 11" blazing red flowers on 4-foot stems when well established. 85c each; 3 for 2.29.

B1718—MARCUS PERRY. New 10" blooms on stems only 18" high. Brilliant orange-scarlet with black spots. Fine. 98c each; 3 for 2.59, ppd.

BARGAIN POPPY COLLECTION

B3243X—1 each of the 11 Oriental Poppies listed on this page. A 9.00 value for only 6.89, postpaid.

Nursery Stock for SOUTHERN FALL PLANTING

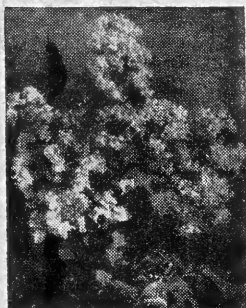

IMPORTANT NOTICE

This stock cannot be shipped until it becomes dormant — usually about the latter part of October.

We picked out these items especially for our customers living south of the Iowa-Missouri line. They can plant all these things in the fall. If you live north of that line, don't plant any of these

items this fall, excepting as recommended.

Now, if you people living north of Missouri insist on ordering stock not recommended for you, we can't help it. But remember, we told you so.

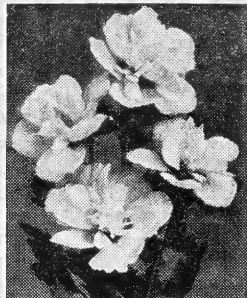

GRAPE MYRTLE

Grows tall and covered with giant clusters of bloom all summer. Perfectly hardy to central Missouri. Everyone south of there should plant this. Farther north tops die down, but if well protected will live over and bloom on new wood.

A1417—Red; A1415—Pink; A1416—Purple; Extra select plants: 59c each; 3 for 1.59, postpaid.

A2354X—Crape Myrtle Collection—1 each of Red, Pink and Purple. 1.45, postpaid.

DOUBLE ALTHEA

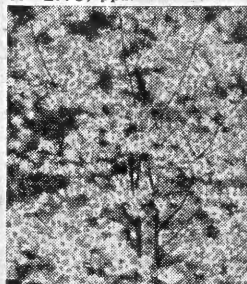

(Rose of Sharon)

Grows 6 to 8 ft. tall and is upright and neat growing—ideal for lawn plantings. Loaded with blossoms in August and September when flowers are needed. Flowers look like big roses when open.

Red—A1401. Pink—A1400. White—A1402. Extra Select plants. 49c each; 3 for 1.29; 5 for 1.98, ppd.

A2351X—ALTHEA COLLECTION. 1 each red, white, pink and blue. 1.79, ppd.

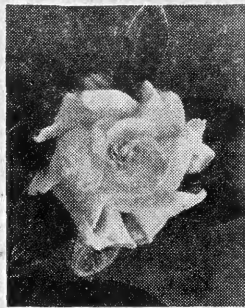

A1404—ALTHEA COELESTIS. A beautiful china blue single Althea. Hardier than most varieties. Outstandingly showy. 79c each; 3 for 2.19, ppd.

Pink and White DOGWOODS

A4215—Pink Flowering Dogwood. This is a HARDY Dogwood (except North of Iowa) that should do well for all of you. It does well in partial shade. Is literally smothered with deep pink flowers before the leaves come in spring. 2 to 3-foot size, root wrapped. 2.98 each; 2 for 5.49, ppd.

A4216—White Flowering Dogwood. Same as above except flowers are pure white. 18 to 24 in. size, root wrapped. 1.69 each; 2 for 3.19, ppd.

GARDENIA

A1433—GARDENIA MYSTERY. Best garden variety. Almost continuous bloom the year around in mild climates and as a house plant farther north. Medium height, glossy, rich green foliage and huge, spectacular, fragrant, snow-white blooms. Plant in partial shade or filtered sunlight. Hardy to 18 degrees above zero. Needs acid soil. (If necessary you can acidify your soil with Aluminum Sulphate listed below.) Potted plants, 98c each, ppd.

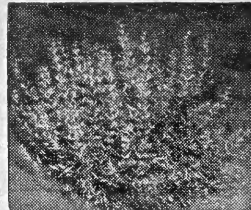

4059—Aluminum Sulphate. Makes soil acid. 1 lb. 39c; 3 lbs. 1.00, ppd.

MAGNOLIA SOULANGEANA

A4259—This is the popular hardy Magnolia; the one with great, pink, cup-shaped flowers. Seldom gets over 12 feet tall. Plant in a sheltered place. Folks south of Iowa should have no trouble but is doubtfully hardy from Iowa north. 2 to 3 ft. strong, root wrapped plants. 3.50 each, ppd.

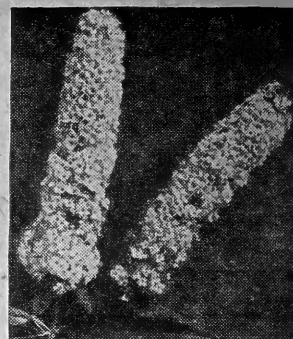

European MOUNTAIN ASH

A4260—Foliage is a beautiful green. Light, smooth bark. A broad head, very compact, with gorgeous creamy white blossoms in spring, followed by clusters of red berries in later summer and fall. Grows rapidly. 4 to 5-foot size, 1.98 each; 2 for 3.79, ppd.

BLUE MIST SPIREA

A1492—HARDY NEW BLUE MIST. A striking, low-growing shrub from Minnesota that blooms all summer and fall. Never gets over 3½ to 4 feet tall. Silvery green foliage and spirea-like flowers. One of the very few blue-flowered shrubs. Often dies to the ground in winter in Iowa and north but that won't do any harm. No. 1, field-grown plants. 89c each; 3 for 2.39, postpaid.

BUTTERFLY BUSHES

A1413—RED GLORY. Brand new, reddest of red. A strikingly brilliant plant. Flowers all summer. 75c each; 3 for 2.10; 12 for 7.50, ppd.

A1410—ILE DE FRANCE. Loaded with blooms all summer long. Color deep reddish purple. Extra Select plants. 69c each; 3 for 1.89, ppd.

A1412—PINK CHARMING. A really charming true pink. Extra select plants. 69c each; 3 for 1.89, ppd.

A1414—SNOWBANK. Pure, soft, snow-white. Beautiful alone or in combination with bright colored varieties. 75c each; 3 for 2.10; 12 for 7.50, ppd.

A1409—MIDNIGHT BLUE. Long spikes of deepest blue flowers with bright yellow eyes. 75c each; 3 for 2.10, ppd.

A2352X—BUTTERFLY BUSH COLLECTION. 1 each of Red Glory, Ile De France, Pink Charming, Midnight Blue for 2.49, ppd.

Grafted PECANS

The secret of getting grafted Pecan trees to live is to dig them with a long root. We do. Which is also why we have to ship them express. Plant at least 35 feet apart.

A4116—Giant Mahan. (Shown at right.) World's largest and most popular. True papershell. Highly productive and beautiful tree. 2 to 3 ft. trees. 3.25 each; 3 for 8.98. Exp. not ppd.

A4117—Stuart. Well suited to all sections and soils. Bears regularly. Large, well filled nuts. Prices at right.

A4118—Success. One of the best varieties for midwest and eastern half of U. S. Beautifully shaped tree. Large, oblong nuts that are plump, sweet and of

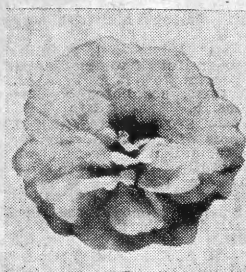

medium-thin shell. Trees self-fertile. Prices below.

Stuart and Success Prices
2-3 ft. 2.98 each; 3 for 8.49, exp. not ppd.

Grafted Pecan Collection

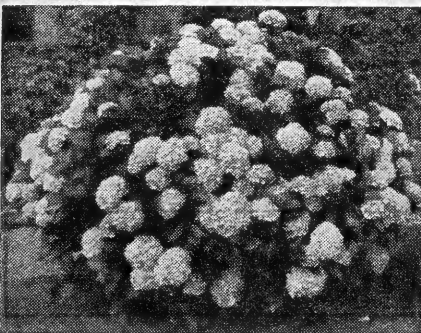

A2373X—1 each of Giant Mahan, Stuart and Success. 2 to 3 ft., for 8.39, exp. not ppd.

Carnation-Flowered

DWARF POMEGRANATE

A1475—One of the prettiest, cleanest shrubs we have ever seen. Grows only 3 to 4 ft. high. Has fresh, bronzy, green leaves and big, double flowers like brilliant scarlet carnations set here and there along the stems. Bears small, showy pomegranates in fall and winter. Will stand frost down to 15 degrees above zero. Loves full sun and good soil but does well under dry desert conditions. 89c each; 3 for 2.59, ppd.

BLUE HYDRANGEA

A1441—Very hardy. Blooms on new wood as well as old. Flowers large, and on acid soil a beautiful blue. In ordinary soil flowers are pink. To make flowers blue, acidify soil by adding Aluminum Sulphate. To make pink, add agricultural lime. Prefers partial shade. Needs some protection in north. Vigorous plants. 1-year, field-grown plants, 98c each; 3 for 2.79, ppd.

PEACH PRICES

3 to 4 ft.—98c each; 3 for 2.69; 5 for 4.35, postpaid.
4 to 5 ft. quick bearing size —1.19 each; 3 for 3.29; 5 for 5.10, postpaid.

DELUXE PEACH PRICES

5 to 7 ft. size DeLuxe trees 2.25 each, postpaid. (See descriptions of DeLuxe Grade Fruit on page 20.)

APRICOTS

A3200—CHINESE GOLD-EN. Exceedingly hardy. Heavy bearer.

A3211—MOORPARK. Freestone. Big, juicy fruit. PRICES: 3 to 4 ft. 1.49 each; 3 for 4.19; 5 for 6.59, ppd.

PEACHES

Plant 15' apart; 190 trees to the acre. Prices are at left.

A3404—ELBERTA. Yellow freestone. (Shown at left.)

A3430—CHAMPION. Hardy white freestone.

A3408—GOLDEN JUBILEE. Red and yellow freestone.

A3410—HALE HAVEN. Freestone, self-pollinizing.

Freestone Peach Bargain

A2770X—1 Elberta, 1 Champion, 1 Hale Haven. 3 to 4 ft. trees. Only 2.49, ppd.

Golden Muscat GRAPE

A1816—Golden Muscat. A miracle fruit. A golden California type grape that's hardy in the Middlewest and South. Big, golden yellow, sweet, juicy grapes in immense long clusters. Each 98c; 3 for 2.59; 5 for 3.89, ppd.

HENRY FIELD'S SEED SENSE

"For the Man Behind the Hoe"

"Seed Sense" was founded as a magazine of "garden talk" in 1910 by Henry Field, who took great pleasure in editing it personally and sending it to his customers. We present herewith a few pages of current "Seed Sense" material—being mostly gardening information, plus some pictures and letters from our customers of today.

Have You Tried Fall Planting?

Ten or fifteen years ago, a great many people simply didn't believe in fall planting anything excepting the fall bulbs such as tulips and daffodils.

However, Henry Field kept on preaching the merits of fall planting. The state college experiment stations kept on, and many of the magazines and newspapers advocated it. So more and more people tried fall planting, and found it good. The result is that now practically no one hesitates to plant in the fall. Even so, perhaps it would be well to list some of the main advantages of fall planting. They are these:

- (1) Plants get six-months head start. The roots of fall planted stock do considerable root growing in the late fall and early spring and become established well ahead of spring planted stock.
- (2) Stand up better. Because they're established, and since they have had the benefit of early moisture, the plants can take the first hot, dry summer weather better.
- (3) Often bloom first spring. Fall planted plants often bloom the first spring, as they are sufficiently established to do so.
- (4) People can usually put in a better garden. Because most people are busier in the spring than in fall, they don't put in nearly as many plants as they would like. In the fall you can do more leisurely, careful, and, therefore, better planting.

Since you have to order spring blooming bulbs, such as tulips, Hyacinths, etc., in the fall, just add whatever nursery stock and perennials you would like. We'll send you first-class stock, in first-class condition and you can see for yourself how successful fall planting is.

Plant Madonna Lilies in Aug. or Early Sept.

The lovely, fragrant Madonna Lilies must be planted in August or early September. The reason for this is that they have to start growing in the fall and make top growth before the freeze-up; otherwise they will not blossom the following year. Cover them with only 2 or 3 inches of soil in a well-drained location.

For something really beautiful, plant Madonnas in front of Delphiniums. Since both flowers bloom at about the same time, the white blooms of the Madonnas against the tall dark blue spikes of the Delphiniums make a very striking picture.

How to Order Dutch Bulbs

When ordering Dutch bulbs, please do not order less than 3 bulbs of one kind unless a single price is given.

We package most bulbs in units of 3, 6 and 12 because those are the quantities that most of our customers want. Our prices, therefore, are usually listed as "3 for", "6 for", and "12 for"

This doesn't mean that you can order one bulb of one kind, one bulb of a second kind and one bulb of a third kind and buy the bulbs at the "3 for" price.

The "3 for" price applies only to 3 bulbs of one kind, the "6 for" price applies only to 6 bulbs of one kind, and the "12 for" price applies only to 12 bulbs of one kind.

Our Nursery Guarantee

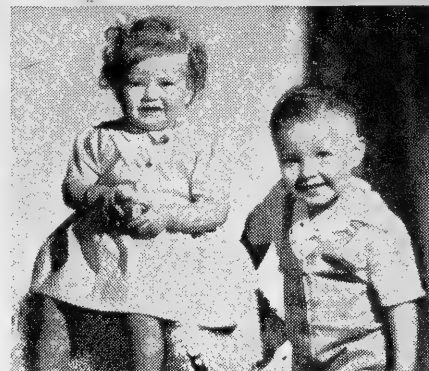

All our stock is guaranteed. If you are not pleased with it in every way when you receive it, return it promptly, at our expense, and it will be replaced or your money refunded, whichever you prefer. After you have planted it, if it fails to grow, we think we should both take part of the blame. We will take one-half and you and the weather take the other, and we'll replace at half-price anything unsatisfactory through any fault of the stock if you notify us not later than May 1, 1955. Accompany your report with a remittance of one-half the original purchase price.

If you wonder how we can make such a guarantee, here are some of the reasons:

1. Our nursery stock is all state inspected.
2. Our nursery stock is free from disease.
3. Our nursery stock is of the highest quality.
4. Our nursery stock is true to name.
5. Our nursery stock is mature, live, ready-to-grow stock, first-class in every way.

Free Wedding Roses

To persons sending in a picture of their recent wedding, Golden Wedding anniversary (50th), or Diamond Wedding anniversary (75th), we will send a free rose bush. Reason we do this is that we want our friends to have them as a sort of a personal gift from us. Just send a photograph and tell us all about it. If you don't have a picture, send an announcement, though we prefer a picture. Can't tell you what kind of rose we will send, but you can be sure it will be a good one. And we'll send it at the proper planting time.

Sends Picture in Appreciation

Here is a picture of Jolene Kay and Larry Gene Nerem, children of Mr. and Mrs. Erwin N. Nerem, Rt. 2, Forest City, Iowa. Mr. Nerem said he was sending us this picture in appreciation for the free gifts and cooperation we have given him.

You certainly have two fine-looking children, Mr. and Mrs. Nerem. We, also, wish to express our appreciation for the valued business you have given us.—Ed.

Order Arrived Fine

Dear Sirs: Our order arrived this morning and everything was fine. Thank you for the two packages of flower seeds.—Mrs Frank Biel, Daisy Lane, #20, New Albany, Ind.

Tips on Mulching

There's no difference in the way things should be planted in the fall than in the spring, except that in the fall the plants should always be mulched. Mulching prevents the continual freezing and thawing that causes the ground to heave up the plants. Make your mulch of straw and leaves or lawn clippings. Leaves alone should not be used as they are apt to mat and thus smother the plants.

Shrubs, roses, grapes, etc., should be hilled up with mounds of dirt 8 to 18 inches high, depending on the kind of plant, and then mulched. Other nursery stock should be mulched well with straw and leaves or manure and the manure worked into the ground next spring.

Everything Grows

"Henry Field's: We have been buying all our seeds and nursery items from you for around 10 years and they just can't be beat. Everything grows and does so well."—J. H. Uttinger, Lawrence, Kans.

Are You Getting Two Catalogs?

If your family is getting more than one catalog, we would sure appreciate knowing it. We send out a catalog to each name on our list, but sometimes different members of families or different people at the same address order from us and each different name is put down. So, two

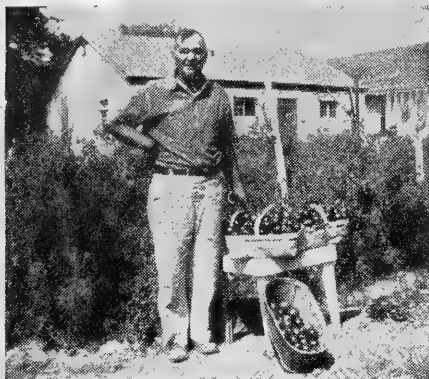

or more catalogs are sent to the same address, and because of this we sometimes don't have enough copies to go around. If you do have an extra catalog please do us a favor by passing it on to a friend, and then let us know about it on the coupon below. Thanks.

Sells Lots of Tomatoes

"Dear Mrs. Field: I am enclosing a picture taken last summer. It shows only a part of my Red Bird tomatoes. I raise and sell a lot of them for they are great yielders and have a good, mild flavor."—Frank Misk, 6435 E. 14th, Kansas City, Mo.

Soot Destroyer

Rids Your Furnace of Soot—
Easily, Safely

Here's a product that is just the thing for cleaning soot and carbon from furnaces, stoves and chimneys. And it is easy, safe and inexpensive to use.

Soot Destroyer, which is a nonexplosive powder, is chemically perfected to destroy soot and carbon in coal, oil or wood-burning furnaces, stoves, boilers, etc., and in chimneys. You merely put the required amount of powder into your heating equipment when the fire is going and that's all there is to it.

If you have never cleaned the soot and carbon out of your heating equipment, we suggest you use a can of Soot Destroyer this fall. By using it, not only will you get more heat from less fuel, but you will eliminate the danger of flue and chimney fires caused by excessive soot and carbon.

We guarantee it to do the job or your money back. Simple directions on each can.

Order No. 4049—Soot Destroyer. 1-lb. can (normally enough for several cleanings), 65c; 3 1-lb. cans, 1.65, postpaid.

Best Popping Corn You Ever Ate

There's nothing like a bowl of good popcorn on these long fall and winter evenings. Popcorn has been a specialty with us for many years. We try all the new varieties as soon as they come out and we've introduced some of the finest of the newer hybrids, so you can see we do know good popcorn. We, therefore, sell only the best.

This fall we are very fortunate in having two extra-fine varieties. Both are hybrids and simply cannot be beat for flavor or quality. Every bit of the corn is guaranteed to pop.

Order No. 190—Yellow Hybrid South American. Pops big, creamy yellow flakes. 5 lbs. for 1.25.

Order No. 191—Hybrid White Hulless. The small white kind. 4 lbs. for 1.25.

(We pay postage on orders to Iowa, Missouri, Nebraska and Kansas. If you do not live in one of these states, please add 5c a pound to help cover postage.)

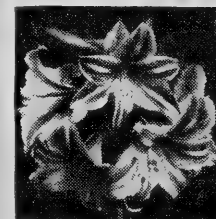

P. S. With each order we will enclose a leaflet of popcorn recipes.

\$1.00 for Your Snapshots

Sure, we still need and want your snapshots. Couldn't put out a Seed Sense or a catalog without them. Then too, we here at the Seed House enjoy looking at them because they give us an idea of how our seeds and nursery stock are doing. They also help us to get to know you better. So come on and send us your extra snapshots. Send us pictures of your children, your homes and farms, crops, vegetables, flowers, etc. Of course we can't use all the snapshots we receive, but we'll pay \$1.00 each for those we do use.

(Don't send negatives as we cannot use them. We also suggest that you do not send us pictures you may want back, as we like to keep all we receive.)

Giant Hybrid Amaryllis

One of the most striking flowers you can grow indoors is the Giant Hybrid Amaryllis. In fact, it's one of the most beautiful and spectacular bulb plants there is. Our hybrids have big, wide-petalled flowers, averaging 4 to 6 inches across, and often have 10 or more blooms on a stem. Coloring is gorgeous. Ranges from almost white to a real dark red with very delicate shadings.

Planting and care are simple. Just put a bulb in a pot with ordinary soil, keeping the neck and about one-third of the bulb protruding. Put in a cool, shaded place. Water sparingly until several inches high. Then bring out of the shade, give plenty of water and keep at a temperature of around 70 degrees. More directions come with each bulb.

Order No. BG401. Mixed colors only. 59c each; 2 for 1.10, postpaid.

New "Black" Parrot Tulip Really Popular

In our catalog for fall 1953, we told you about the new "black" tulip. We said then that this was "the most sought after of all tulips on the market today." There have been black tulips before but never a black parrot tulip.

Well, we expected many of our customers to respond, but certainly not so enthusiastically, nor in such great numbers!

So, in case you missed it last year, we are repeating the offer.

Its color is deep, rich, maroon-black. The blossoms are huge—easily 7 to 9 inches across—and are so fantastically frilled and fringed you marvel at how the blossoms are able to hold together. The stems are strong and long, usually attaining a height of 2 feet or more. Thus, the striking flowers, borne on the tall stems, immediately demand the attention of all who see it.

Put all these features together—the dark color, huge frilled and fringed blossoms, tall 2-foot stems—and you can easily understand why this new Black Parrot Tulip is the most sought after of all tulips.

Order No. B6326. 3 for 75c; 6 for 1.35; 12 for 2.40, postpaid.

P. S. Last year we had to price this at 3 for 1.30, and are happy to be able to lower the price this year.

New WARFARIN Best of All Rat and Mouse Poisons

Sensational new Warfarin is by far the most effective rat and mouse poison on the market today. If used according to directions, Warfarin never fails. It kills whole colonies easily and inexpensively!

Warfarin is a better rodenticide for these four reasons:

- (1) It is much less dangerous to humans, livestock, pets and poultry.
- (2) You don't have to bother with two different poisons. Warfarin gets both rats and mice.
- (3) Warfarin is odorless and tasteless. Rodents do not develop "bait shyness."
- (4) Warfarin kills slowly. Dead and dying rats do not warn rest of colony.

Discovered at the University of Wisconsin and released in 1950 for general distribution, Warfarin is now on the market under several different brand names. Naturally, we think that our "Henry Field Warfarin Rat and Mouse Killer" is the best of all.

We sell it in two forms:

(1) Warfarin Concentrate, which you mix with bait such as laying mash, ground oats, or cornmeal. Order No. 4070. Warfarin Concentrate. 4-oz. can (makes 5 lbs. bait) 1.75; 8-oz. can (makes 10 lbs. bait) 3.00, postpaid.

(2) Ready-Mixed Warfarin, which is already mixed and ready for use. Order No. 4063. Ready-Mixed Warfarin. 1 lb. 98c; 5 lbs. 2.95, postpaid.

Both are fully guaranteed. Simple directions come on each can.

Trees, Roses, Shrubs Can't Be Shipped Until They're Dormant

Each fall we receive letters from many of our customers asking why they haven't received their shade trees, fruit trees, shrubs and roses, or why these items weren't received at the same time they got their tulips, daffodils and other fall-planted bulbs.

This article, we hope, will answer most of the questions you may have about when we ship things in the fall.

We Start Shipping Bulbs and Perennials In September

Fall bulbs are ripe and ready to plant from about the early part of September on. Therefore, as soon as we receive them from Holland, we ship them right on to you. Most perennials are ready for planting by at least September 15, and these, too, are usually shipped out in a hurry.

But, with shade trees, fruit trees, shrubs and roses, it's different. We can't ship them until the plants have dropped their leaves and become dormant. Ordinarily it takes one or two good strong frosts to kill the foliage on this type of nursery stock. Then and only then can these items be dug and shipped.

Start Shipping Trees and Shrubs About October 15

Usually our shrubs, trees, etc., are ready for shipping about October 15—sometimes a little later than that. But even if we were able to send out these items before October 15, they shouldn't be planted that early anyway. The weather usually is much too warm. In addition, no tree or shrub or rose will put on one single bit of outward growth the fall it is planted. It isn't supposed to. It is going to sleep then for the winter—not coming to life. It will make some root growth, however.

You Can Plant Quite Late in Fall

We have found fall a natural time to plant nursery stock. It doesn't matter in the least if there is a heavy crust on the ground at the time you plant. Just break through the frozen crust and plant the tree or shrub. Then mound it up well so that the frost will not heave it out before spring. That is all there is to fall planting.

Bride and Groom

"Dear Mrs. Field: We are sending our wedding picture and would like the gift rose you offer. We are also sending you our first seed order. Our folks have used your seeds for many years."—Mrs. Luther Edwards, Rt. 3, Sedalia, Mo.

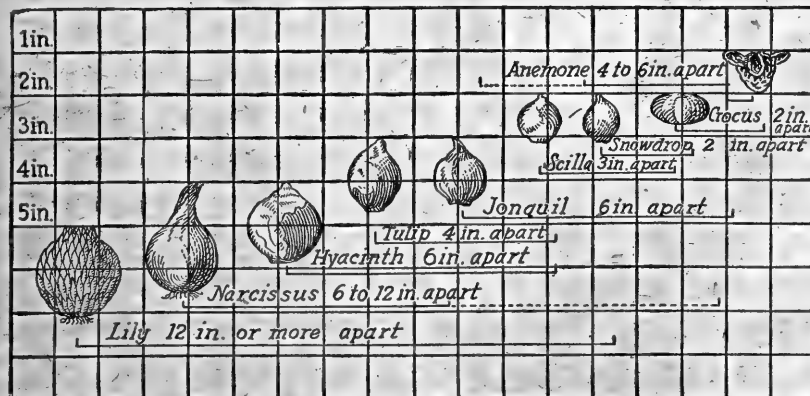

Our best wishes for you, Mr. and Mrs. Edwards. The free wedding rose has been sent and we hope you enjoy it for many years. Thank you for sending us your first seed order.—Ed.

Blue Celeste—a Blue Double, Peony-flowered Tulip

All of the double peony-flowered tulips are beautiful, but we believe this new blue one is the most striking of all.

The blossoms are huge and solidly double, and the color is a soft heliotrope blue. They look very much like great blue peonies, and immediately become the key attractions of any flower arrangement, particularly when set off by tulips of other colors.

We have not seen Blue Celeste listed in any other catalog in this country, and believe it is a rarity. We recommend it unhesitatingly to you. No. B6033—3 for 75c; 6 for 1.35; 12 for 2.40, postpaid.

Depth and Distance Apart Chart for Fall Bulbs

Take care in planting fall bulbs to see that they have every chance of success and play their full part in beautifying the garden. The above Bulb Planting Depth Chart will show you the depth and distance apart to plant bulbs. If the ground has been newly spaded, and is quite loose,

the depth should be increased an inch or so to allow for settling, and because of the increased effect of frost heaving on newly turned soil. Also, late planted bulbs, which have no opportunity to make roots before the soil freezes, may be set a little deeper to protect them from frost action.

Calla Lilies for Potting

We have some dandy Calla Lily bulbs that are ideal for potting. They're big, healthy bulbs that will make tall, stately blooms and fine, beautiful foliage. Calla Lilies are easy to grow and require only ordinary care. Really are hard to beat for a potted plant. Full directions come with each order. Available in three colors.

White—BG411, Yellow—BG412: 40c each; 2 for 69c. Pink—BG417 (a new, different, rare type): 50c each; 2 for 89c.

Collection of one each of all three colors—BG592X—only 1.09. All prices postpaid.

Two Brand New Forsythia

(Golden Bell)

Everyone loves Forsythia because, after the flower-barren months of winter, it is the first commonly grown shrub to bloom in the spring, bursting forth with an inspiring display of golden yellow.

In recent years, some new varieties of Forsythia have come on the market. We have been watching and testing them—rejecting those we felt were not better than the old varieties, and looking for better ones. We have found two that definitely are better; they are these:

Forsythia Farrand

Forsythia Farrand (Golden Bells var. Farrand), is a fine new variety originated at the famous Arnold Arboretum in Massachusetts. It is a hybrid of Arnold Giant, which in turn is a hybrid of the showy Forsythia species "Forsythia Spectabilis".

Farrand grows vigorously, with a spreading, fountain-like form. In the spring, every stem is crowded with very large blooms of lemon-yellow. It makes a beautiful companion for another new one, Forsythia Lynwood, described below.

Forsythia Farrand is catalog number A1426. 1.50 each, postpaid.

Forsythia Lynwood Gold

Forsythia Lynwood Gold (Golden Bell, Lynwood Gold) has probably the most brilliantly colored flowers of all Forsythias. It was originated in Ireland, and has been a sensation wherever grown in this country.

It is an erect, or upright, growing Forsythia, with branches literally smothered with very large blooms of bright golden yellow. When you see it in bloom early in the spring, you simply won't believe so many flowers could be crowded onto the stems.

And one of the finest features of Lynwood Gold is the firm texture of the petals of the flower. This makes it an ideal cut flower, and also enables it to withstand adverse weather that would ruin the blooms of an ordinary Forsythia.

The plant does grow tall, eventually attaining a height of about seven feet, but it can be kept down by pruning if you desire a lower shrub.

Lynwood Gold is catalog number A1427. The price is 1.50 each postpaid.

Both for \$2.50

A2358X—As mentioned above, the two new Forsythia look wonderful together, each complimenting the other. So we offer you 1 of each, both for 2.50, postpaid.

A Sensational New Bunch-flowered Tulip—Odette

A year ago, a friend of ours (a famous garden editor whose name you probably would recognize immediately) was visiting in Holland, and there saw a striking new tulip. Upon her return to this country, she told us about it. Knowing that any flower would have to be unusually good to earn such enthusiastic praise from our critical friend, we immediately wrote to Holland and, even though this new tulip was scarce, found a source of supply.

We Were Surprised

That was a year ago, and last fall we listed this new tulip briefly in our fall catalog. We had seen color photos of it, but no actual flowers, and being anxious to see it in bloom, planted several hundred bulbs in our own test grounds here at Shenandoah. When they bloomed this last spring, they were the most magnificent spectacle we have ever beheld in a tulip planting. Here is what we saw:

Such a mass of blooms that the eye immediately passed over hundreds of other varieties in the planting and focused on this one variety, Odette. You see, each bulb throws up an average of five blossoms on a branched stem, so where Odette was planted there were five times as many blooms as in other beds of the same size.

Once focused on this new variety, our eye stayed there because of the brilliance and beauty of the blossoms. We learned that Odette opens a soft yellow, quickly deepens, and then there appears stripes and bands of vivid orange-red. At the peak of bloom, the bed of Odettes was an indescribable riot of color. We have never seen anything like it in our long years of testing many varieties of tulips. (See page 2 for reproduction of color picture taken in our test grounds this spring.) We doubt that Odette is offered for sale by any other nursery this year but you can be quite certain it will be when the other nurseries learn of it.

Perfect for Cutting

One more thing about Odette: being a bunch-flowered tulip, it has an average of about five flowers per stem. So, by cutting the stem low, the flowers of just one plant make a nice natural flower arrangement. And several make a real bouquet.

Priced Low

Since Odette is such an outstanding tulip, and since we at this time apparently have the only supply in this country, we are sure we could sell our limited quantity at a high price. But, in line with the Henry Field policy of pricing as low as possible for the benefit of our customers, we have kept the price low.

The catalog number is B6028. The prices are 12 for 2.40; 25 for 4.45; 50 for 8.00; 100 for 14.00, postpaid.

Giant Cucumber

"Dear Field's: This is a picture of my niece, Patsy Summers, of Webb City, Mo., holding a cucumber grown from Henry Field seed. The name of the variety is Marketer. It was 16 1/4 in. long, 3 1/4 in. thick."—C. A. Rathbun, Box 161, Oranogo, Mo.

Rabbit Repellent For Trees and Shrubs

If you are in need of a good rabbit repellent to apply to trees or shrubs, order a can of our Peter Rabbit Repellent. You just paint or spray it on the tree or shrub trunks and rabbits stay away. Full simple directions on the can.

Order No. 4057—1 qt. Peter Rabbit Repellent (enough to treat 30 to 40 trees one inch in diameter) 1.65, postpaid.

Orange Ruffles

The Most Fragrant of All Roses

We have always been greatly interested in Brownell roses because their extreme hardiness is coupled with a beauty that rivals that of any other rose on the market today. We are pleased to be among the few who are offering the brand new Brownell Hybrid Tea rose, Orange Ruffles.

It is an outstandingly beautiful rose of clear orange, with 60 or more petals—making it fully double and solid. Overshadowing even its remarkable beauty, in our opinion, is its appealing fragrance. To the normal tea rose perfume has been added an alluring spiciness, making an exceptionally pleasing fragrance.

The plant has a tendency to make a bushy, rounded growth, each branch of which produces a continuous succession of roses all summer long. We suggest you try a plant or two this fall. You'll thank us for telling you about it.

A1010—No. 1, 2-year-old, field-grown plants. 2.00 each; 3 for 5.85, postpaid.

Sensational Offer of New Red Bearded Pink Iris Seedlings

The red bearded Pink Iris seedlings in this offer are sister seedlings of Mr. Chester Tompkins' beautiful "Apricot Supreme" Iris, which was awarded a certificate of high commendation by the American Iris Society.

These sister seedlings are all fine, large flowers. Some are light pink, some are dark pink, some come in apricot shades, others in orchid-pink shades. All have the bright red beards common to this new strain. Among these seedlings are crosses involving all the fine new pinks from Hall, Loomis, Sass, etc., that are worth many times more than the price we are asking for the plants.

We really should not sell these Iris so cheaply, as, in our opinion, they are actually more beautiful than any pink variety in our fields, regardless of price. Many of the plants are good enough to name, but Mr. Tompkins does not want too many varieties of a similar nature. He prefers that we offer these to you at a low price that will move them. We absolutely guarantee that you will get your money's worth . . . and more! See page 8 of this catalog for a picture of one of these lovely Iris in full color.

No. B3069X—Red Bearded Pink Iris Seedlings from "Apricot Supreme." Collection of 3 for only \$1.98, postpaid.

You Ought to Know About These New Roses

Some remarkably good new roses have come onto the market recently. Unfortunately, we simply didn't have room to picture these new varieties in the color section of this fall's catalog, but we will show them in color in our catalog next spring. In the meantime, we will give you here information about them so that you can order them now for planting this fall. The prices will be the same next spring, so you save no money by waiting, but you will be ahead by planting them now so that they will be in your garden to start growing at the earliest moment next spring.

For your convenience, we'll divide them into two general headings, Hybrid Teas and Floribundas.

The New Hybrid Teas

A1288—MOJAVE (Pat. No. 1176). This is the only hybrid tea rose to win a 1954 All America Award. It is, without a doubt, the finest orange colored hybrid tea rose yet introduced. It is named after California's famous Mojave desert, and the name fits perfectly because its rich coloring is like a desert sunset. It is glowing orange shot with flame-like tones of scarlet and vermillion. Mojave is a good grower, bears a profusion of large flowers on long stems (ideal for cutting), has beautiful tapered buds, and is pleasantly fragrant. **2.75 each; 3 or more at 2.40 each, postpaid.**

A1251—ALLURE (Pat. No. 880). This is one of the most beautiful of pink roses. The flowers are rich pink, suffused with gold, and tinted salmon. When fully open, the blossoms measure five to six inches across and come singly on long stems perfect for cutting. The foliage is healthy, vigorous, glossy green. Allure was awarded a First Certificate of the famous Bagatelle Gardens in France. **1.75 each; 3 for 4.65, postpaid.**

A1160—NEIGE PARFUM (not patented). This is a rose of purest white, tremendously enhanced by a fragrance so breathtaking that a perfume maker probably would barter his soul to be able to reproduce it. It is acclaimed by many to be the most fragrant of all roses, and a white rose at that. The snowy white blooms are large and beautifully formed, and borne continuously throughout the spring, summer and fall. A bouquet of them fills a room with beauty and fragrance. **1.75 each; 3 for 4.65, postpaid.**

A1277—HUNTSMAN (Pat. No. 1012). This is a beautiful new bi-color from England, having long, slightly rounded buds of red and yellow, and large blooms of brilliant spectrum red and orange yellow. It is one of the freest blooming of all roses, being the first to bloom in the spring, and continuing to bloom through summer and up until frost. **2.00 each; 3 for 5.25, postpaid.**

A1258—BUCCANEER (Pat. No. 1119). The brightest, clearest yellow rose yet offered—absolutely a clear, golden yellow. Even in the heat of summer, Buccaneer opens up a beautiful golden yellow. The buds are long, slender and tapering, opening into large flowers on long stems. Buccaneer was awarded medals in Switzerland; Paris, France; and Rome, Italy. **2.75 each; 3 for 7.20, postpaid.**

A1298—WHITE SWAN (Pat. No. 1115). We have never before offered for sale a

patented white rose because, up to now, we didn't think any of them were good enough. But White Swan is. The dark green foliage makes a beautiful background for the perfectly formed white blossoms. An upright, vigorous grower. Long graceful buds slowly open into three to four-inch, high-centered flowers. Delightfully fragrant too. **2.25 each; 3 for 6.00, postpaid.**

The New Floribundas

It is difficult to beat such Floribundas as Fashion, Lavender Pinocchio, Goldilocks, and a few others and, frankly, these new ones don't. But they do equal them, and are of different colors. So we offer them to give you a wider color range for your garden. Again, as with hybrid tea roses, there are many, many new varieties coming out, and we try to list only the very cream of the crop.

Give these newcomers a trial—if we hadn't been certain you would like them, we would not have searched them out and labored on them in the growing fields:

A1384—EMBERS (Pat. No. 1178). As brilliant a rose as we have ever seen and, in addition, it has a bronze green foliage that stands out from all other rose plants. This dark foliage provides the perfect background for the brilliant, flaming scarlet-red blossoms. Embers is well named—its blossoms seem to have the glow of hot coals. The blossoms do not fade but instead age to a darker color, providing an even better setting for the new blooms. This plant most certainly will take its place as one of the finest of all Floribundas. **2.25 each; 3 for 5.98, postpaid.**

A1388—GLACIER (Pat. No. 1025). This is the whitest of all Floribundas. We have not previously offered a white Floribunda because we never before found one worth listing, excepting the old non-patented Dagmar Spath, which is still a fine rose. In Glacier we have a new, large-flowered Floribunda type with icy-white buds that glisten and dance like icicles in the sun. These buds open to large, soft snow-white blooms up to 4½ inches across, borne either singly or in clusters. Glacier will be beautiful planted with the higher colored Floribundas such as Embers, Fashion, Geranium Red and Goldilocks. **2.25 each; 3 for 5.98, postpaid.**

A1390—MASQUERADE (Pat. No. 975). We just can't, with words alone, describe the unusual beauty of this rose, so be sure to see our color picture of it in our catalog for spring 1955. Maybe we can give you some idea of its color, though:

Each bud is golden yellow with tiny vermillion marks. The center bud of each cluster opens first, becoming rosy pink as the petals unfold. This rose pink deepens gradually to a deep red; and again passes through another lovely color sequence of yellow, silver pink, red and orange. The flowers are borne in clusters, semi-double, and very large. As the flowers gradually open at different times in each cluster, there usually are blooms of three, four, or five distinctly different colors in each cluster—hence the name Masquerade. Cut a branch of this rose and you have with it alone a bouquet of many colors, all blended in perfect harmony. **2.00 each; 3 for 5.25, postpaid.**

New Double Peony-flowered Tulips

(Pictured on Front Cover)

We would like to give you here more detailed information about the brand new Double Peony-flowered Tulips pictured on the front cover, in the upper left-hand corner.

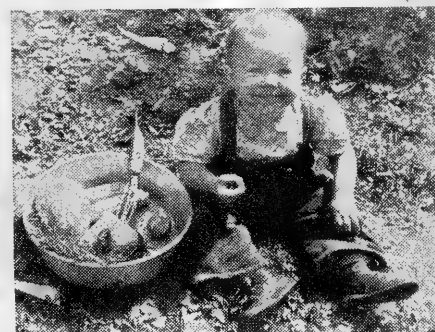

The huge, long-stemmed, double, peony-flowering tulips have always been popular with you, our customers. So, when we had an opportunity this fall to buy, directly from a hybridizer in Holland, a mixture of these brand-new varieties, you may be sure we jumped at the chance. This is the first time they have been placed on the American market.

Although we have not ourselves seen the fields of these new tulips in Holland, we have received from the hybridizer some very good colored photographs of them. These colored photographs (transparencies) show quite clearly the size and beauty of the blooms, and we assure you that they certainly are something to see. There is every color, and combination of colors, known to tulips in this group. And all of the flowers are huge and double-flowered—as large as ordinary peonies.

If you want something that will really make the neighbors' eyes pop with envy, try these.

Even though these are brand new hybrids, you will notice that we have kept the price just about as low as the price of the named varieties of double peony-flowered tulips previously on the market. We most certainly suggest you try a dozen or so of these bulbs, and we guarantee that you won't be disappointed in the blooms.

No. B6039—postpaid prices: 3 for 75c; 6 for 1.35; 12 for 2.40.

"Dear Sirs: We surely do appreciate the reasonable prices and your free gifts."—Mrs. L. E. Lehman, 1751 Grant, Elkhart, Ind.

Members of American Iris Society Select "100 Most Popular Iris" for 1954

OLA KALA

Each year the American Iris Society conducts a poll among its 4,500 members to determine the 100 most popular iris of the country.

For the fifth year in a row, the beautiful, free-flowering, golden yellow Ola Kala leads the list. We don't have room here to list all one hundred, but we do list the first twenty. Where we have the variety for sale, we show our catalog number and price:

1. Ola Kala. B1260—89c each; 3 for 2.49, ppd.
2. Blue Rhythm. B1229—98c each; 3 for 2.49, ppd.
3. Lady Mohr. B1255—98c each; 3 for 2.49, ppd.
4. Chivalry.
5. Sable. B1276—75c each; 3 for 1.79, ppd.
6. Great Lakes. B1246—69c each; 3 for 1.69, ppd.
7. Blue Shimmer. B1234—89c each; 3 for 2.29, ppd.
8. Elmohr. B1237—75c each; 3 for 1.79, ppd.
9. Helen McGregor.
10. Snow Flurry. B1280—89c each; 3 for 2.29, ppd.
11. Solid Mahogany. B1282—69c each; 3 for 1.69, ppd.
12. New Snow.
13. Minnie Colquhite. B1369—98c each; 3 for 2.49, ppd.
14. Master Charles.
15. Amandine.
16. Wabash. B1288—49c each; 3 for 1.29, ppd.
17. Argus Pheasant.
18. Pink Cameo. B1380—1.50 each; 3 for 3.98, ppd.
19. Ranger. B1385—1.39 each; 3 for 3.89, ppd.
20. Mulberry Rose. B1373—69c each; 3 for 1.69, ppd.

We are pleased that we are able to offer you, in this catalog, fourteen of the first twenty. You will find them pictured on page 8, or on the front cover.

Of the six varieties we do not offer in this catalog, we don't offer them because they are so close in color to some we do offer.

Best Iris Not High Priced

Perhaps you noticed that the list of the first twenty iris shows them to be comparatively inexpensive. This is because they are not the new untested \$15.00 and \$25.00 varieties. Neither are they some of the highly publicized frilled and be-decked debutantes that may or may not make the grade. Instead, they are the good, solid varieties that have proven their worth, and beauty, beyond a doubt.

Iris Have Changed

By the above paragraph, we do not mean to imply that iris have not changed recently. They have, tremendously. If you base your own judgment of iris upon the small-flowered, poorly colored varieties of ten years ago, you should try some of the iris listed above. You will be pleasantly surprised at their great beauty of form and color, and size. And yet they are very easy to grow. In fact, they are one of the easiest of all flowers to grow.

Special Offer on 7 of Top 10

On the envelope in which this catalog

came to you, we offer seven of the first ten iris on the above list, at a special bargain price. In case you have lost, or misplaced your envelope, we repeat the offer for you here:

No. B3102X—1 each of the following (7 of the top 10) for only 4.79, postpaid.

- | | |
|---------------|----------------|
| 1 Ola Kala | 1 Elmohr |
| 1 Sable | 1 Snow Flurry |
| 1 Blue Rhythm | 1 Blue Shimmer |
| 1 Lady Mohr | |

The only reason we did not include the other 3 of the first 10 is that they duplicate some of the colors of the above 7.

No C.O.D.'s, Please

Unfortunately, we just can't ship C.O.D. There are so many delays in shipping this way that it isn't practical. Nursery stock should be planted just as soon as possible after leaving here, and if it has to wait around to be delivered it may not do too well. So, this is for your own protection. Then too, C.O.D.'s always cause a lot of red tape, which in turn causes higher prices. We know you folks want to buy things at as low a price as possible, so by not having C.O.D.'s, we can keep our prices down.

We Can Make Immediate Shipment On Orders for Fall Delivery

New Merion Bluegrass

For those of you who want the pure Merion Bluegrass to plant in a new lawn or add to an old one, we can supply you with a limited amount of seed.

Here, in short, are the main advantages of Merion Bluegrass:

(1) Has an excellent dark green color and appearance.

(2) Helps crowd out Crabgrass and other weeds.

(3) Is highly resistant to heat and drouth—stays dark even in the hottest, driest weather.

(4) Has high resistance to leaf spot and other diseases.

(5) Requires less mowing.

(6) You use less seed when planting because plants spread fast.

If you want some of this finest of all Bluegrass, place your order soon. We sold out early last year. Use 1 pound of seed per 750 sq. feet of lawn surface.

No. 8010—1 lb., 3.89; 3 lbs., 10.89; 5 lbs., 17.85, postpaid.

Our "Evergreen" Lawn Mix Is a Real Value

Since fall is the ideal time to make new lawns or patch up old ones, we want to call your attention to our Best Evergreen Lawn Mix. It's a mix that gives you highest quality seed at a moderate price. A real value!

It is a blend of the very best lawn grasses, a large percentage being Kentucky Blue Grass. You may use it with success in open and sunny areas, as well as in lightly shaded spots. And, it works well on all soil types. Wherever you use it, it will give you a permanent turf of beautiful deep green.

The seed is extra heavy weight, weed-free, bright and of highest quality. It has been cleaned and re-cleaned on special mills, then Hormone-treated so grass will be healthier and more permanent.

Place your order soon, as this is always one of our most popular lawn mixes.

No. 8042—1 lb., 1.29; 3 lbs., 3.49; 5 lbs., 5.49; 10 lbs., 10.49, all postpaid.

Extra Select, Pure Kentucky Blue Grass

This is extra select, heavy weight, pure Kentucky Blue Grass of highest quality. It will make a deep-rooted, dense, green carpet of beautiful grass which should last for years.

The seed is carefully cleaned and re-cleaned, is free of weeds, and is of highest germination. And it's Hormone-treated to make the grass healthier, more drouth resistant and more permanent.

Kentucky Blue Grass is the favorite lawn grass, and at our low prices you can afford to have it in your lawn.

No. 8001—1 lb., 1.45; 3 lbs., 3.49; 5 lbs., 5.79; 10 lbs., 10.95, all postpaid.

Lot Hardy Grimm Alfalfa

Our Lot Hardy is strictly northern-grown Grimm Alfalfa. It is fully 97% pure—free of bad weeds. The color is not as bright as our top quality, but the value and hardness are there. We sold more of this lot last spring than any other Alfalfa. See price list.

Sun Cured Kentucky Blue Grass

This is new crop Kentucky Blue Grass—not a mixture of cheap grasses, but honest-to-goodness, pure Kentucky Blue Grass—which will make a bright green lawn or pasture for you all season long. It's an ideal grass for patching up an old lawn or for starting a new one.

We call it "Sun cured" because it is cured right out in the sun and wind. This helps make it bright and clean. The seed is of good quality, or high germination and is weed-free, of course.

We harvest hundreds of thousands of pounds of Blue Grass each year so are able to make you a real price.

No. 8002—1 lb., 1.09; 3 lbs., 2.79; 5 lbs., 4.29; 10 lbs., 8.29, all postpaid.

Our Merion Bluegrass Mixture Will Give You a Prettier, Healthier Lawn

Our new 100% perennial grass mixture containing the new sensational Merion Bluegrass is the best grass mixture we have ever offered.

This mixture contains: 30% Merion Bluegrass—the finest of all Bluegrass, 50% Creeping Fescue—to thicken the turf, 10% Highland Bent Grass—the most disease and drouth tolerant of all the Bents, and 10% Red Top—for thin soils and to act as a nurse crop.

Plant this fine mixture this fall and have a beautiful lawn next spring. The seed in this mixture goes more than twice as far as most grass seed mixtures, so figure 1-pound per 750 sq. feet.

No. 8012—1 lb., 2.15; 3 lbs., 5.85; 5 lbs., 9.45; 10 lbs., 18.45, postpaid.

Certified Ranger Alfalfa

This fine lot of Certified Blue Tag Ranger Alfalfa was grown from hardy foundation seed stocks. Sealed in bushel bags, there is none finer.

Ranger is wilt resistant, producing high yields of leafy, fine stemmed hay and lots of it. Extremely winter hardy and long lived. Our sales have tripled the past year on Ranger seed. You can't beat it for quality in purity and germination or color. Early purchases make our low fall price possible. This is by far the lowest price that Ranger seed has been offered for since its introduction. Get yours early while we have it for you. See price list.

Even Though You Pay Freight, Our Field Seed Prices Save You Money

Even though you pay the freight charges on field seed orders, our prices are so low that you still save money.

The reason for this is that our big operations give us the advantage of better buying. And this year we bought early—when the buying was good—and are passing the savings on to you.

Remember, the best field seeds at the lowest prices can always be bought at Henry Field's.

Dormatone Prevents Potatoes from Sprouting

You can now store your home-grown potatoes for months without cold storage by using Dormatone, the hormone sprout inhibitor that prevents sprouting, softening and shriveling.

Use of Dormatone actually eliminates spoilage and large loss of weight. Shrinkage is cut down 10% to 15%. In addition, it helps retain the nutritional value of potatoes and actually improves their cooking and eating qualities. And, Dormatone can also be used with equal success on other root crops, such as beets, carrots, turnips and rutabagas.

It's easy and inexpensive to use—you just dust it on. Absolutely harmless, too. We've tried it on all sorts of root crops and are completely sold on it.

Order No. 4053. 12-oz. sifter can (treats 8 bu.) for 1.00, postpaid.

Our Alfalfa Bargains Best Ever

We've never offered you such Alfalfa bargains before. We bought early (when the buying was good) and we urge you to do the same. The quality of the seed is excellent and the prices are low. See price list.

A Good Plant Food for African Violets

"Garden Life Plant Food" is a fine new plant food made especially for African violets.

Consisting of Nitrogen, available Phosphoric acid and soluble Potash, it is a very effective plant food that produces faster growth, bigger blooms and better colors.

Although it is made especially for African violets, it also produces good results when used on all house plants, garden plants, tomatoes, strawberries, roses, shrubs, transplants and cuttings.

It comes in a highly concentrated powder form, so a little goes a long way. You just mix the powder with water and apply. Full simple directions are on the can.

Order No. 4036. 4-oz. pkg. 50c; 12-oz. pkg. 1.10, postpaid.

Attractive Plastic Flower Pot

After several years of searching we have finally found a plastic flower pot we can recommend. Not only is this one very attractive, but it is sturdy and well made.

It is 4½ inches wide at the top and 4 inches high. Has a separate saucer so that plants may be watered from the bottom.

The pot comes in these colors: chartreuse, copper, red, black. State your choice on your order.

Order No. 4031—Plastic Flower Pot. 48c each; 3 for 1.25, postpaid.

Evergreens Need Water All Winter

Be sure that your evergreens go into the winter with a good supply of water down in the ground around their roots. Unlike the plants that go dormant, evergreens stay awake all winter, and need more water.

After the top crust of soil has frozen, not much moisture finds its way from the ground surface down to the roots. So give your evergreens a good big drink this fall before the ground freezes.

Fall Planting Safe Until Soil Freezes Hard

When freezing temperatures begin, many folks who have not finished their planting wonder how much longer it can safely be done. The answer is: as long as the soil will crumble and can be packed properly about the bulbs and roots of plants.

It makes little difference to plants whether it is November or December so long as they can be properly planted. A crust of frost on the surface of the soil will not interfere with planting. In fact, such things as fruit and shade trees (not evergreens) and other heavy nursery stock can be planted right up to the time when the ground freezes solid.

Fall Excellent Time to Make Lawns

Early fall, from late August through September, is an excellent time to undertake renovation of old lawns and seeding of new lawns. Since permanent lawn grasses are extremely slow in early growth, the cool moist weather of autumn is very favorable to their germination and establishment of a good strong root system.

How's This for a Squash?

"Here is a picture of my little grandson and granddaughter, Claude and Ethel Mae Hall, with a blue Banana Squash grown from your seed. It not only was large, but it kept for about a year. Then we ate it and it still was firm and tasted good."—Mr. Claude Oakland, Rt. 1, Laton, Calif.

Two Win Bicycles for Junior Seedsman Sales

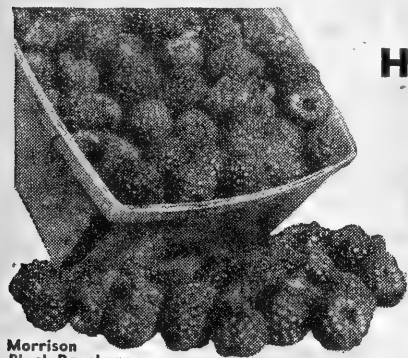

While we announced in our Spring Catalog that there would be one grand prize to the one Junior Seedsman selling the most seed, and settling up for it by June 1, we end up with two winners.

A Rollfast DeLuxe girl's bicycle has been sent to Jewell Ann O'Connor, age 10, of 1220 Jefferson, Wichita, Kansas, for selling 27 deals, or 324 collections. She had sold and settled up for all this by March 30.

A Rollfast DeLuxe boy's bicycle also has been sent to James G. Pientka, age 11, of 1870 E. Hyacinth, St. Paul 6, Minn. He sold 28 deals, or 336 collections. However, on June 1 (closing date for the contest), we had not heard from him about the last 2 of these deals. But a few days later we had this letter from James: "Please let me know if you received the money order I sent on May 29. I would have sent it sooner but my little sister, 9 months old, was sick with heart trouble and she passed away May 31st."

So, under these circumstances, we sent a bicycle both to Jewell and James. Our congratulations to both these fine young people, and our deepest sympathy to James upon the loss of his sister.

Don't neglect the most important thing you wear—your expression.

Here's How Henry Field's Give You BETTER STRAWBERRY PLANTS for Fall Planting

We are delighted that we are now able to offer you fine dormant strawberry plants—available on any date you want them—for fall planting. Just write the date you want them on your order.

In past years, we always had trouble with fall dug strawberry plants. They were too small, and could not be dug until very late in the season—too late for planting in many localities.

Now, after many years of testing, it has been found that strawberry plants that are dug while still dormant early in the spring can be put immediately into cold storage and kept dormant and in perfect condition until fall. Upon being planted in the fall, these plants start to grow with unbelievable rapidity, as though they were trying to make up for lost time. Often several green leaves appear on each plant within just two or three days after planting. (Remember that the plants

reaching you are absolutely dormant, with most of the leaves brown, just as in early spring, so don't become alarmed at their appearance.)

This certainly is a great step forward in the handling of strawberry plants because it makes fall planting of strawberries worthwhile and practical.

The plants will come to you in polyethylene sacks without packing of any kind on the roots. We have been working on this new method with Iowa State College for several years in a concerted effort to get fresh, living plants to you in the best possible condition. Let us know how you like them.

IMPORTANT—Be sure to mulch your strawberries with 3 to 4 inches of coarse litter (rye straw, pine boughs, etc.) at freezing time. This keeps the ground from freezing and thawing, thus heaving out the young plants.

How to FALL PLANT STRAWBERRIES

It's Easy—and It Pays

Fall planting gives strawberries a running start for next spring. Just mulch them well after the ground freezes. Don't use dirt. Use 3 to 4 inches of straw or some coarse litter that will not pack (don't use leaves). It's not that the plants aren't hardy enough—they are—but, unless the ground is mulched the first year to prevent freezing and thawing, the plants are very apt to frost heave.

You folks from middle Missouri south can plant on into the winter, depending how far south you are. North of Missouri, strawberries can be planted up to October 15, depending upon your location.

Special Freeze Box Collection

Fall Planted FRUIT GAINS 6 MONTHS

Any fruit listed here can be fall planted. Just leave a mound of dirt around the base of the tree until spring to prevent heaving.

In very cold climates, bury the stock in a trench, top and all, and mound dirt over the trench to shed water. When dug for spring planting, they will be in

a beautifully fresh condition.

Remember, it is often the last of October before fruit trees become dormant enough to dig in our nurseries and ship to you. So don't expect delivery before that time. You can plant fruit trees any time up until the ground freezes too deep to open up.

Henry Field's DE LUXE GRADE Fruit Trees

FASTER GROWING — BETTER SHAPED — QUICKER BEARING

NOW—WE POSTPAY THEM TO YOUR DOOR. In the past, we have shipped our DeLuxe Grade of fruit trees express collect because they were too big to send parcel post. Now we are pruning the trees before shipping, and this reduces their length enough so that we can send them to you, right to your door, via parcel post—and we prepay them. This not only insures proper pruning, but saves you at least \$1.86 per shipment in express charges! Now, more than ever, it pays to plant this DeLuxe grade.

Henry Field's DeLuxe Grade of fruit trees will make faster growing, better shaped, quicker bearing trees for you. They are extra-select jumbo-size, the very finest of their kind.

What Our DeLuxe Grade Means

1. You get well-branched, heavy-rooted, straight-trunked, jumbo size trees.
2. Roots of trees are specially wrapped in heavy kraft paper to prevent damage and then enclosed in the new polythene film to prevent drying out.
3. Properly pruned by our experts before being shipped to you.
4. Proper planting depth is indicated on trunk of tree.
5. Complete directions given on best way to handle the tree.

All in all, it means you get the best of the biggest, quickest bearing fruit trees.

Guaranteed to Live

We are so confident that you will not lose one of these trees that we will replace it absolutely free if it is not in vigorous growing condition one year from the date you receive it, provided you plant it within 48 hours after receiving it, water and care for it properly, and so state in your letter should you report loss. Of course we are not liable for damage from drought, flood, mice, and rabbits.

DELCON a true DWARF APPLE

for only 1.89

Delcon

Delcon was originated by the Missouri State Experiment Station at Mountain Grove, Mo., and offered for sale for the first time in the United States in our March 1948 Seed Sense. Its parentage is Ben Davis, Jonathan and Delicious—a true dwarf with drooping branches.

Some dwarf apple trees are made by multigrafting, a complicated process which is more expensive and when you end up you don't have much of a tree; and they have to sell for five or six dollars. But Delcon is a single-graft, a true dwarf, a small tree (for easy picking) with full-sized apples, and we sell it for only 1.89, postpaid. Perfect for the backyard.

The fruit is fine grained, juicy, and has some of the flavor of both Delicious and Jonathan. It produces heavy at an early age, seldom needs thinning, ripens about ten days before Delicious, and keeps well in storage.

You ought to plant it. Deluxe Grade not available.

No. A3015, 3 to 4 ft. size, only 1.89 each, postpaid. 4 to 5 ft. size, only 2.19 each, postpaid.

Henry Field's NEW, HARDY HYBRID ELM

Fastest Growing Tree in the Temperate Zone

This amazing new tree combines the permanence and beauty of the American Elm with the rapid growth of the Chinese Elm. Apparently immune to Dutch Elm disease. Grows 8 to 14 feet per year—gives you shade in a hurry.

And it is extra hardy. Keeps right on growing in weather hot and cold, wet or dry. Its leaves are large and dark green, much like the foliage of the American Elm. The bark is smooth and a medium grey color. The branches are straight and strong; won't break in a high wind.

NOTICE: Hybrid Elms sometimes start slowly in the spring—maybe sulk for as long as two months, then start growing like mad. It's the nature of the beast, so be patient with it. It soon will more than make it up. The best time to plant Hybrid Elms, or any other tree, is in the fall when the trees become dormant enough to move (usually late October, when we ship), up until the ground is frozen so solid you can't crack it. Mound a pile of dirt around the base of the tree for the first winter to prevent frost heaving. Rabbits like young Hybrid Elms, so tie fine-mesh wire or heavy paper around the trunk for the first couple of winters.

LOMBARDY POPLAR

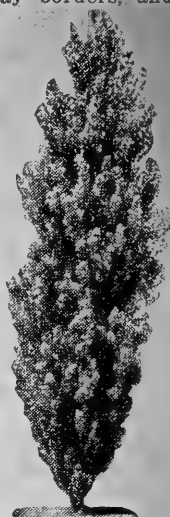

The Beautiful Pillar Tree

A4255—This is the beautiful, popular pillar tree that grows so fast. Used for backgrounds, accent plantings, driveway borders, and sentinel trees by the gate. Plant 6 to 8 feet apart.

Many people keep them cut off at the top when they have reached a height of 8, 12, 14 feet—any height desired—which keeps them shorter, encourages more dense growth and makes them better screens.

3 to 4-ft. size: 2 for 78c; 5 for 1.49; 25 for 6.75, ppd.

4 to 5-ft. size: 2 for 88c; 5 for 1.98; 25 for 7.98, ppd.

You Can Fall Plant These Henry Field ROSES

You can have better roses next spring if you plant them this fall. The fall planted roses do not make any top growth during the fall and winter, but they do get a running start next spring because they already are in the ground to take advantage of melting snow and early cold rains. They get a good root growth before hot weather hits.

IMPORTANT: We can not ship roses to you in the fall until they become dormant, which usually is late October. To fall plant, prune tops to about 12". Plant in the usual way and then mound dirt over all but about 3" of the tips of the stems. Remove this mound of dirt gently next spring when the buds start swelling.

MARTHA BULLOCK

The Largest Flowered
of all Peonies

B1535—Rated 9.1. Peony experts rate this as one of the three best of all peonies. Its blooms are almost as large as the ordinary-size dinner plate. Outer petals are a soft rose-pink; the full, fluffy center a pale shell-pink. Stems are stiff, strong, and easily hold the immense, fragrant blossoms upright where they can be seen. 1.25 each; 3 for 3.49, postpaid.

MEMORIAL DAY COLLECTION

4 Choice Peonies only 3.19
Postpaid

B3170X—This is always our most popular peony collection. You get four colors, each is an early blooming variety. Will give you an ideal selection of peonies for Memorial Day.

1 LONGFELLOW—One of the finest brilliant reds.

1 FESTIVA MAXIMA—large white.

1 EDULIS SUPERBA—deep pink outer petals, shading to light pink center.

1 KARL ROSENFELD—deep red. **FREE GIFT: 1 Regal,** the most popular lily we grow.

IMPORTANT TIP: Plant the peony roots so that the little pink buds are exactly 2" below ground level—no more, no less. This is important. Then mound the ground up over the top 4 to 6 inches for the winter.

3 for 1.49 PEONY SPECIAL

B3181X—A grand assortment of big, double, choice varieties of different colors. This is your chance to save because this collection is made up of varieties we grow too many of—often the most expensive ones. Unlabeled. Sent postpaid.

Lots of folks just like to buy peonies by color and want great big, full, double flowers. Here they are at bargain prices. All good varieties, labeled as to color.

Hardy PHLOX

Fall is the best time for planting phlox. The roots get hooked into the soil and the plants are "rarin' to go" with the first breath of spring. Mulch well after (not before) ground freezes the first winter.

Phlox grow 18" to 36" high, depending upon soil. They like full sun, but do well in partial shade. The pastel pinks and blues look better in partial shade where the sun won't fade them. Phlox bloom in July and Aug., and are perfectly hardy. Keep the flowers cut so the plants won't go to seed; the seedlings usually come a muddy magenta color and, being vigorous, crowd out your good varieties.

Price on the 6 below is 45c each; 3 for 1.25, postpaid.

B1610—**DAILY SKETCH**. One of the largest and best of the pinks. Very pronounced red eye.

B1641—**MARY LOUISE**. Pure shiny white and a free bloomer.

B1666—**STARLIGHT**. A clear, rich violet with a sharply defined white star in center.

B1613—**EVA FORESTER**. Flowers of tremendous size. One of the best.

B1657—**PROGRESS**. Lavender blue with centers a shade lighter.

B1636—**LEO SCHLAGETER**. This is the largest and best crimson.

Price on the 6 below is 49c each; 3 for 1.29, postpaid.

B1652—**PURPLE SWEETHEART**. A new and good deep purple.

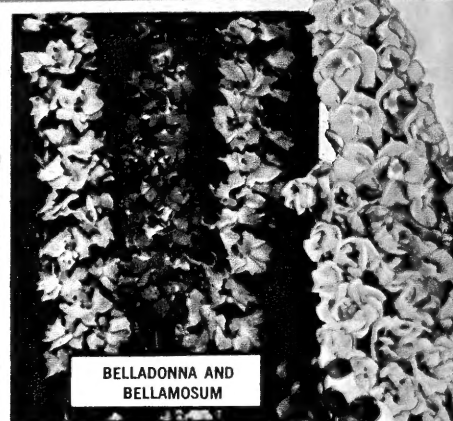

B1637—**LILLIAN**. Soft cameo pink. One of the very best pinks.

B1601—**AFRICA**. Large clusters of brightest scarlet flowers.

B1653—**POLKA DOT**. Another new and good one. Has huge flowers.

B1662—**SALMON GLOW**. The very best of all salmon Phlox.

B1605—**BLUETTE**. New. Large flowers never turn objectionable purple.

RAINBOW HYBRID New LILIES

These are the big, brilliantly colored, famous new hybrids from the west coast. Not only are they gorgeous but absolutely hardy and very easy to grow. Colors run from palest straw yellow to deepest gold with lots of maroons and deep reds—and sometimes with all these colors in one blossom. Long, tall stems. The best part is we don't have to sell them for \$4 or \$5 apiece. These are our low prices:

B5026—59c each; 3 for 1.49; 6 for 2.25, postpaid.

HENRY FIELD'S HARDY LILIES

If you have never planted lilies in the fall, we urge you to do so. You probably know, of course, that the Madonna lily should be planted in the fall only, but you will find that all lilies are particularly well adapted to fall planting. Just plant them in the usual way but, if you live where the ground freezes, mulch with 2 inches of coarse straw after the ground is frozen, particularly the first winter.

We have assembled here for you what we sincerely believe are the world's best lilies. Some are the old familiar favorites but some are new ones that will amaze both you and your friends with their great beauty.

NEW! CENTIFOLIUM HYBRID LILY

These are magnificent pure white hybrids from the West Coast, the result of over 15 years of hybridizing. They are the result of crossing of a half dozen or more lilies and far outshine the Regal Lily in every respect. After several years of growth, they reach a height of 6 to 8 feet with great clusters of 50 or more blossoms crowning the top.

The flowers are shaped like broad flaring trumpets, as you can see in the picture, and are pure white inside. The reverse of the petals are often pink, emerald green, or brown, making some striking contrasts in color.

These lilies are exceedingly hardy, growing and blooming beautifully outdoors. Because of their deep root system, they stand severe drouth well. Plant 6 inches deep.

They are called Lilium Centifolium (Hundred Leaved) because of their abundant, rich green foliage. **B5004—59c each; 3 for 1.49; 6 for 2.79, ppd.**

The NEW Mei Ling

B5017—These are unusually beautiful lilies—flowers are 4 to 6" across, pure white, with a bright golden star center. Wonderful cut flowers and, for corsages, as beautiful as orchids. Plant 6" deep. 1.98 each; 3 for 5.69, postpaid.

Yellow Trumpet

B5037—This lily is from the same seedling strain as the spike of bloom that won the Griffith Cup and the Sweepstakes Award at the 1950 National Lily Show; also the Award of Merit at the 1951 show. 2.00 each; 3 for 5.98, postpaid.

3 GREAT NEW LILIES

The lilies Mei Ling, Yellow Trumpet, and Aurelian Hybrids are from a group resulting from more than 15 years of patient crossing by Mr. Carleton Yerex in the Pacific Northwest. We have visited Mr. Yerex's place many times, and the lilies he has there are astounding. We first planted these here in Shenandoah in the fall of 1949. They are perfectly hardy and as easily grown as any other plant. Some grow stems higher than our head. They are far superior in color and beauty.

Mid-Century Hybrid Lily "Enchantment"

B5009—(Pat. #862). One of the most brilliant of all lilies. Hardy, disease resisting, easy to grow. Plants get 30" to 40" tall and create great masses of nasturtium-red upright cups. 75c each; 3 for 1.95, postpaid.

New Lilies Collection

B3469X—Top size bulbs of the scarce, new hybrids. Only a few firms have them; you can't duplicate this price anywhere. 1 Yellow Trumpet, 1 Mei Ling and 2 Aurelian Hybrids—all 4 for 6.89, postpaid.

New Aurelian Hybrids

B5000—Wide, flaring trumpet lilies in beautiful combinations of colors, including gorgeous sunburst effects. Flowers are all 6" or more across and, as the plants grow older, form magnificent clumps. Plant 6" deep. 1.69 each; 3 for 4.98, postpaid.

Pink Trumpet Aurelian Hybrid

B5020—Not only one of the most beautiful of the new Yerex hybrids but a hardy plant and a vigorous grower. To avoid sun-fading of flowers, best to plant in partial shade, or protect at time of blooming. Plant 6" deep. 2.75 each, ppd.

Bargain Lily Collection

B3464X—1 each of Mid-Century "Enchantment," Flame, Regal, Coral, Speciosum Rubrum and Centifolium—all 6 for only 2.69, postpaid.

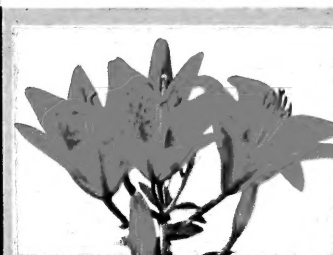

Cascade Hybrid Madonna

B5016—Has tremendous vigor. Surpasses all other Madonnas in height of stalk and size of flowers. Has great resistance to lily disease botrytis. Plant not over 2 to 3 inches deep. 59c each; 3 for 1.49; 6 for 2.79, postpaid.

Speciosum Rubrum The Beautiful "Show Lily"

B5030—Carmine red on a white ground with crimson spots. One of the most beautiful of all lilies, but very hardy; will grow just about anywhere. Plant 7 to 8 inches deep. 65c each; 3 for 1.79, postpaid.

FLAME LILY (Red Russian)

B5011—One of the easiest of all garden lilies to grow. Produces large clusters of good-sized, reddish-orange flowers. Plant 6 to 8" deep. 35c each; 3 for 80c; 5 for 1.29, postpaid.

Regal Lily Bargain

B3454X—A little smaller bulbs than those offered under B5027, but very good. 10 bulbs for only 1.98, postpaid.

Coral Lily

B5005 (Tenoufolium)—Narrow-leaved, slender-growing plant with many deep scarlet, waxy, recurved flowers on each plant. One of the most brilliantly colored lilies. Plant 4 to 6 inches deep. 29c each; 3 for 75c; 6 for 1.39, postpaid.

Brilliant Lily Collection

B3456X—1 each of Coral, Flame, Speciosum Rubrum and Regal—all 4 for only 1.49, postpaid.

REGAL LILY

Always Covered with Blooms

B5027—The graceful lily with large pure white flowers, tinged lightly with lilac on the outside and yellow on the inside. One of the most widely grown, and most popular, of all lilies. Plant 8 to 10 inches deep. 35c each; 3 for 85c; 6 for 1.49, postpaid.
